Description

The BASIC cut-off wheel for the angle grinder will take your work projects to the next level. This universal tool is perfect for cutting stainless steel sheets, profiles, pipes, bars and solid material. The BASIC cut-off wheel provides a precise cut every time so you can get the job done quickly and efficiently.

Features

- + The chemical purity of the product prevents corrosion, pitting corrosion and reduction in fatigue strength for good results on stainless steel
- + Convenient and low-burr cutting with good wheel life
- + The thickness of just 1.0 mm enables speed and precision when working

Applications

- + For machining different stainless steel grades
- + For cutting metal sheets, profiles, pipes, rods and solid material
