Description

The Tyrolit PREMIUM RONDELLER combines product advantages of different grinding tools with the simplest handling. Thanks to the unique geometry and arrangement of the stud pattern, you can grind gently and ergonomically. The optimal adaptation to the workpiece allows you to perfectly machine curved surfaces in all machining jobs, with absolutely no vibration.

Features

- + Easy assembly without the use of special accessories such as back up pads and clamping nuts
- + Outstanding chip transport as well as cool grinding that is gentle on the material thanks to the unique geometry and stud pattern
- + Vibration-free and ergonomic use as well as optimum adaptation to the workpiece

Applications

- + For demanding work on universal stone materials as well as PVC
- + Ideal for grinding, deburring and forming work on curved surfaces
